...Supporting Waterloo, Sierra Leone

Charity No. 1111926

**For 14 years the Partnership, run entirely by volunteers, has supported sustainable development projects in Waterloo, Sierra Leone. We have built schools, a bakery and several wells, supported farmers, and enabled a large number of children to attend school.**

**There is currently a desperate and immediate need to help feed families affected by the Covid virus. Families living in lockdown conditions with no opportunity or money to buy provisions. Our volunteers in Sierra Leone have been distributing food and water to meet this urgent need. But in order to continue they need our help.**

**100% of your donations will be spent on this support.**
