

MAP

MEDICAL AID FOR PALESTINIANS

Every year living under occupation is a struggle for Palestinian children. But 2020 has been exceptionally difficult.

Whether they are living under the threat of annexation in the West Bank, deprived of adequate

healthcare in unliveable Gaza or struggling in overcrowded and unsanitary camps in Lebanon, the added threat of COVID-19 and its consequences is making the lives of young and vulnerable Palestinians even harder.

An urgent gift from you today could help deliver vital children's health services in Gaza, the West Bank and the refugee camps of Lebanon. Please help protect the health and wellbeing of

Palestine's youngest and most vulnerable.

Help keep the hopes of Palestinian children alive this Christmas.
