

The Sefton Community Pantry is currently based in Safe Regeneration, Bootle. We provide food and hygiene hampers 24/7 to vulnerable families across Sefton.

So, we're a community pantry/kitchen for families and children in the Sefton area.

We distribute through Sefton schools who refer the families to us and who deliver on our behalf.

The cafe is temporarily closed due to a planned building refurbishment and we are operating the pantry hampers out of a temporary venue.

Besides making a cash donation through our Just Giving page, you can also purchase much-needed items for vulnerable families through our Amazon Wish list page. (See link).

Please help in whatever way you can. Every donation or purchase makes a difference at this difficult time. Thank you for supporting **Sefton Community Pantry**.
